## ΠΕΡΙΛΗΨΗ

Παρά την αυξανόμενη ευαισθητοποίηση σχετικά με τη διαταραχή του αυτιστικού φάσματος (ΔΑΦ), η έρευνα παραδοσιακά επικεντρώθηκε σε λευκά αγόρια της μεσαίας τάξης, με αποτέλεσμα να υποεκπροσωπούνται περιθωριοποιημένες ομάδες. Οι συγκεκριμένες ανισότητες μπορούν να αποδοθούν στο κοινωνικό στίγμα και την περιορισμένη πρόσβαση σε υπηρεσίες υγειονομικής. Επιπλέον, η έλλειψη ποικιλομορφίας στους ερευνητικούς πληθυσμούς αντανακλά ένα ευρύτερο κοινωνικό ζήτημα, το οποίο ενισχύει τις υπάρχουσες δομές εξουσίας και αγνοεί τις εμπειρίες των περιθωριοποιημένων κοινοτήτων. Η συγκεκριμένη μελέτη βιβλιογραφικής ανασκόπησης, τονίζει την ανάγκη να εξεταστεί η σύνθετη αλληλεπίδραση μεταξύ του φύλου, του αυτισμού και των πολλαπλών περιθωριοποιημένων ταυτοτήτων, προκειμένου να αναπτυχθούν πιο περιεκτικές και αποτελεσματικές στρατηγικές διάγνωσης και θεραπείας. Εξετάζοντας τις εμπειρίες ατόμων με ΔΑΦ και διαφορετικές ταυτότητες φύλου, η μελέτη αυτή στοχεύει στην προώθηση μιας πιο διαφοροποιημένης κατανόησης των αλληλεπιδράσεων μεταξύ φύλου, αυτισμού και περιθωριοποίησης.

**Λέξεις-κλειδιά:** διαθεματικότητα, αυτισμός, θεωρίες φύλου, περιθωριοποιημένες ταυτότητες, ταυτότητες φύλου.
